No

If any, explainUntitled

A brief bio on your interests, characteristics and recent achievements (Maximum 200 words)

I am writing to express my strong interest in being part of the Universal Youth Movement (UYM) and seeking to get a fully funded scholarship.

As a graduate of the Gambia College School of Education and other tertiary institutions in the Gambia, with over five (5) years of experience in Journalism, I have gained a deep understanding of the importance of culture and how it affects our way of life.

My ongoing learning experience at the University of the Gambia and in my previous role has given me a solid understanding of the complex issues surrounding nationalism, culture, and identity.

My ability to work with diverse groups, including young people and host communities, has helped me develop strong communication and interpersonal skills that will positively contribute to the UYM objective.

On a more personal level, I am self-motivated, positive, and have an enthusiastic 'can-do' attitude. I have considerable knowledge of all the attributes you are specifically looking for, especially team

What motivates you to participate in UYLS - Malaysia 2024? (Maximum 200 words)

As a youth leader, my ambition is to continue creating a meaningful impact in my community and engaging with the youth in various areas of life. The topics of this youth leadership conference include Universal Education, Youth Governance, Mental health, and Wellbeing. These are key topics to consider in ensuring that young people are well-equipped for their future careers.

However, I am motivated to participate in the Universal Youth Movement for various reasons:

Global Impact: Many are motivated by the idea of contributing to a global cause, striving for a better world for future generations.

Empowerment: Participating in a movement can be empowering, giving youth a platform to voice their opinions and influence decisions that affect their future desire for Change. Many young people want to address social, environmental, and political issues and believe collective action can bring about significant change.

In what ways could your involvement in UYLS - Malaysia 2024 further benefit your community? (Maximum 200 words)

Participating in a global movement can help bridge cultural and generational gaps within my community, promoting inclusivity and understanding. The Universal Youth Movement could be beneficial to me and my community in several ways:

Raising Awareness: Being active and engaging with young people can help raise awareness about critical issues affecting my community, educating others, and fostering a more informed public. Leadership: My active role and involvement can inspire others in my community, particularly younger members, to also get involved and take leadership roles

Community Projects: I will initiate and participate in community projects, such as clean-up drives, cultural awareness programs, educational programs, or health initiatives, that can directly improve local conditions.
